## Product Description :

L-carnitine + green tea 500mg 30capsules/bottle, BFAD no.FW 3830

"Trim your Heart and take care of your Heart!"

Vitaslim is made from CarnipureR a special grade of L-Carnitine, manufactured by the Swiss life sciences company Lonza. Thanks to a unique production process based on fermentation, Lonza is the only L-Carnitine manufacturer capable of producing L-Carnitine in the same way as nature. Vitaslim is guaranteed 100% pure, natural L-Carnitine - totally free from toxic D-Carnitine.

Vitaslim is made from the purest L-carnitine, that is proven essential for energy production and for fat metabolism combined with GreenTea that is rich in catechin polyphenols, particularly epigallocatechin gallate (EGCG) that does not only inhibit the growth of cancer cells but kills cancer cells without harming the healthy tissue.

Warning: Most L-carnitine in the market contains D-carnitine. This is a toxic substance that accumulates in the body. Only carnipure in Vitaslim has the purest L-carnitine free from toxic D-carnitine.

## FACTS ABOUT L-CARNITINE:

L-Carnitine is conditionally produced by the body but a very little amount is produced resulting to storage of fat in the body.

To make L-carnitine effective for weight lost, you need at least 250mg of L-carnitine to burn fat. Animal Meats is high source of L-carnitine and L-carnitine is seldom found in vegetables and fruits. To have at least 100mg of L-carnitine produced by the body you need to eat 5kgs. Of Pork liver and together with this you eat the fat and cholesterol of pork liver. Thus, L-carnitine supplement is necessary.

Unlike Vitamins, L-carnitine has no toxicity because our body produces it and it has his own mechanism how to take it out.

#### VITASLIM

has 300mg of L-carnitine and 200mg green tea, enough amount to supplement the body's need to burn fat. Sad to say, other brands is underdose.

- No diarrhea.
- No Palpitation
- No appetite Suppressant.
- Pure Fat Burner
- Safe to pregnant and Lactating Women.

What makes VitaSlim special?

The

secret of of VitaSlim lies in the fact that Vitaslim made from the purest L-carnitine, that is proven essential for energy production and for fat metabolism combined with GreenTea that is rich in catechin polyphenols, particularly epigallocatechin gallate (EGCG) that does not only inhibit the growth of cancer cells but kills cancer cells without harming the healthy tissue. It has also been, and inhibiting the abnormal formation of blood clots. The latter takes on added importance when you consider that thrombosis (the formation of abnormal blood clots) is the leading cause of heart attacks and stroke. In a 1997 study, researchers from the University of Kansas determined that EGCG is twice as powerful as resveratrol, which may explain why the rate of heart disease among Japanese men is quite low, even though approximately seventy-five percent are smokers. Ø Vitaslim For Sports Nutrition: Fat and carbohydrate are the primary fuels used to meet the energy demands for physical exercise and Vitalslim turns these to energy to achieved:

- Optimization of Performance
- Delayed Onset of Fatigue
- Improved Recovery Process

VitalSlim,

For Cardiovascular Health Most people don't realize that the heart obtains 70% of its energy from fat breakdown. Clinical data indicates that VitalSlim can positively support healthy heart muscle, can significantly increase heart muscle viability and is beneficial in supporting a healthy heartbeat. Other clinical research data indicate that VitalSlim maybe helpful in maintaining healthy cholesterol and triglyceride levels.

### Vitaslim for Weight

**Management** In obese adolescents, VitalSlim with L-carnitine supplementation promotes weight loss, decreases BMI and body fat content. When used in conjunction with a reduced calorie diet and moderate exercise, VitaSlim resulted in a much greater loss in body weight in obese people, a decrease in low density lipoprotein (LDL) and blood sugar levels and a reduction in blood pressure.

### Vitaslim for Brain Wellness

L-carnitine has a variety of properties that include restorative or even protective actions against aging processes and neurodegeneration. In more simple terms, this means that acetyl L-carnitine (ALC) has a vital role in maintaining brain function as we age. In fact, numerous sound clinical studies have shown that ALC supplementation (Vitalslim) may help in reducing the mental decline under certain conditions.

### VitaSlim for

**Pregnancy**Vitaslim contains purest L-carnitine that plays a critical part in the wellbeing of mother and child. A significant decrease in plasma L-carnitine is found during pregnancy, which further decreases with gestational age. It is well established that plasma L-Carnitine levels at delivery are about half those found in non-pregnant women should supplement daily with up to 2g of L-carnitine.

### VitaSlim for Male Fertility

Men frequently have a problem with the number, motility or shape of their sperm and it is estimated that 40% of human infertility is entirely or partly related to deficiencies in sperm quality. Vitaslim provides valuable support for the male reproductive system. In sperm, the high concentration of Vitaslim plays a role in energy metabolism and most importantly, may support sperm quality. A number of clinical studies have reported the benefits of Vitaslim with L-Carnitine & Green Tea supplementation in terms of its effects on sperm. Vitaslim supplementation to infertile men was found to increase sperm concentration, sperm count, % sperm motility and % sperm with rapid progression.

VitalSlim should be considered by all men interested in supporting their reproductive system.

### Vitaslim for Vegetarians and

**Beyond** Humans ingesting a lacto-ovo- or a strict vegetarian diet over years have shown to have decreased plasma L-Carnitine concentrations because the body requirements for L-carnitine are met exclusively from

the consumption of meat, this results to lower amino acids, lysine and methionine as well as bioavailable iron. Vegetarians and anyone following a meat-reduced diet can benefit from Vitaslim. Since Vitaslim is directly involved in the metabolism of fatty acids and carbohydrates, a good supply is important for active people providing the energy they need.

#### Vitaslim for Healthy Aging

Vitaslim can be regarded as the ideal nutrient for a long life, as it comprises all the benefits that seniors need to stay fit and healthy in both mind and body. Eating habits changed and energy are lowered when we age. Usually, elderly eat less meat, thus the dietary requirements to produced nutrients are decreased resulting to reduction in energy metabolism. Supplementation by Vitaslim aids this low energy metabolism. Brain changes from structural to functional are decreased by aging, from blood supply to number of neurons, the brain cells that specialize in transmitting information, diminishes. These are results of some imbalances, increase free radicals and decrease efficiency of anti-oxidants. Supplementation with 2-4 capsules of Vitaslim /day resulted in significantly improved mental status in elderly people, compared with the placebo group, assessed by means of the Wesseley and Powell scale.
